

Eggcamper *Teardropp* LIGHTWEIGHT MOLDED COMPOSITE UTILITY TRAILER

Teardropp is reminiscent of the teardrop trailers popular in the 1930s. They featured an aerodynamic teardrop shape, room to sleep comfortably inside and a galley for cooking outside under the rear lid.

Eggcamper offers several models of a molded fiberglass ***Teardropp*** utility camper. The ***Teardropp*** features a lightweight weatherproof design built from composite materials. ***Teardropp*** is perfect for weekending, tailgate cookouts and recreational pursuits as diverse as your imagination.
