

THE CUTTER GAS MOTORHOME

CUTLER

If you prefer a smaller Cutler, we offer two gas-powered models available on a Chevrolet chassis. Both offer Cutler's superior

livability features and give you the added spaciousness that can make your travels even more enjoyable.

Both heating and ducted roof air conditioning are controlled by a conveniently-placed thermostat.

Location of batteries behind the engine cover makes routine maintenance easier than ever. (30' and 34' only)

Alcoa aluminum wheels, standard on the Cutter 35' pusher, add to its good looks while providing a stronger, lightweight wheel. (Available February, 1998)

Exterior shower and service hook-ups are all readily accessible in the centrally located system.

Cutter is designed to provide maximum exterior storage capacity. Large, carpeted compartments with aluminum doors (two pass-through compartments in most models) allow you to carry everything you'll need and give you easy access to it as well.

Optional twin beds available 30' and 34'

30' Gas-powered Cutter

34' Gas-powered Cutter

Cutter 35' Diesel Pusher shown with optional free-standing dinette

Cutter 35' Diesel Pusher Slide shown with optional free-standing dinette
